Risk Considerations:

The price of an investment in a DDA ETP may go up or down and the investor may not get back the amount invested. The price performance of cryptocurrencies is highly volatile and unpredictable. You are exposed to the risk of capital loss and to currency risk. Past performance is hence no guarantee of future performance. You agree to do your own research and due diligence before making any investment decision with respect to securities or investment opportunities discussed herein. The approval of the prospectus should not be construed as an endorsement of the securities offered or admitted to trading on a Regulated Market. These are not extensive risk considerations. Prospective investors

should read the prospectus before making any investment decision in order to fully understand the potential risks and rewards of deciding to invest in the securities.

The ETP is 100% physically backed, by Bitcoin, securely held in cold storage by an institutional-grade custodian. Investors can buy and sell the product during regular trading hours, just like any other listed security.
